SUMMARY

2+ years experience in designing and developing end to end web applications in corporate environment. Executed and contributed to full-stack web development projects, with an emphasis on front end features and cross-browser compatibility. Developed various applications for in-house manufacturing processes.

EXPERIENCE

Associate IT Analyst
Caterpillar India Pvt. Ltd.

Jul 2014 to
Nov 2017

Manufacturing Applications

As a part of GIS Asia Pacific Manufacturing Solutions team, actively developed miscellaneous in-house manufacturing applications like PSPS, AQE, etc. to help build, manufacture and assemble various engines/machine parts in the shopfloor. Directly interacted with manufacturing engineers to understand the requirements and deliver results.

CART

Contributed to Caterpillar Account Reconciliation Tool (CART) used globally by the Financial Divisions for conducting business transactions, account reconciliations and maintenance. Developed different user pages like Account Creation, Account Approval etc. for India, Thailand and Australia regions.
